

TANISH RAJ

SENIOR FRONTEND ENGINEER | REACT.JS | TYPESCRIPT | NEXT JS | FRONTEND ARCHITECTURE

Abu Dhabi, UAE | +971 561338400 | hire.tanishraj@gmail.com | www.tanishraj.vercel.app

PROFESSIONAL SUMMARY

Senior Frontend Engineer with nearly 10 years of experience building scalable, high-performance web and mobile applications across banking, fintech, enterprise, and product-based domains. Strong expertise in React.js, TypeScript, Next.js, Vue.js, React Native, frontend architecture, design systems, performance optimization, accessibility, testing, and CI/CD workflows. Experienced in leading frontend initiatives, modernizing legacy applications, building reusable component patterns, collaborating with product/design/backend teams, mentoring engineers, improving code quality, and delivering secure, maintainable, user-focused applications.

CORE COMPETENCIES

Frontend Architecture	React.js / TypeScript / Next.js.	Design Systems & UI Libraries
Performance Optimization	Legacy Migration	Responsive & Accessible UI
Testing Strategy	CI/CD Collaboration	Code Review & Mentoring
Agile Delivery	Technical Documentation	Cross-functional Leadership

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript ES6+, Next.js, Vue.js, React Native, HTML5, CSS3, SCSS, LESS
Architecture: Frontend Architecture, Component Design, Design Systems, Micro Frontends, Code Splitting, Lazy Loading
State & APIs: Redux Toolkit, Redux Saga, Vuex, Context API, Apollo Client, GraphQL, REST APIs, Axios
UI & Styling: Tailwind CSS, Material UI, Chakra UI, Kendo UI, Bootstrap, Responsive Design, Accessibility WCAG
Testing: Jest, Vitest, React Testing Library, TDD, Unit Testing, Integration Testing
Performance: Web Vitals, Bundle Optimization, Lighthouse, Memoization, Caching, Rendering
Optimization Build & Tools: Vite, Webpack, Rollup, Parcel, Babel, ESLint, Prettier, Storybook, GitHub, Bitbucket
Delivery: CI/CD, Agile/Scrum, Monitoring Collaboration, Release Support, Technical Documentation

WORK EXPERIENCE

Senior Frontend Engineer

Jul, 2024 – Present

Liquidity Capital | Abu Dhabi, UAE

- Contributing to Liquidity Capital finance platforms aligned with capital formation, private credit, intelligent capital allocation, and data-driven investment workflows using React.js, TypeScript, Vite, Redux, Apollo Client, and GraphQL.
- Leading legacy application migration by modernizing older frontend modules into scalable, maintainable React and TypeScript architecture with reusable patterns and cleaner state/API boundaries.
- Developed a reusable design system and shared component foundation to improve UI consistency, delivery speed, accessibility, and long-term maintainability across finance products.
- Built AI Assistant components, including Lexical Editor-based rich text experiences for structured content creation, investment intelligence workflows, report-like outputs, and interactive user journeys.
- Implemented frontend experiences for data-heavy financial flows such as origination, analysis, structuring, portfolio monitoring, risk visibility, and decision-support interfaces.
- Contributed to branding migration by updating UI foundations, visual components, layouts, and application styling to align with updated brand guidelines and product experience standards.
- Collaborating with product, design, backend, QA, and data teams to deliver secure, performant, production-ready features connected to GraphQL APIs and financial platform workflows.

Senior Frontend Engineer

Oct, 2022 – Jun, 2024

Banque Saudi Fransi | Dubai, UAE

- Built frontend solutions for digital banking platforms using React.js, TypeScript, Next.js, React Native, and modern UI frameworks.
- Contributed to the Customer Happiness Portal and Digital Banking Mobile App, improving customer support workflows and application usability.
- Led frontend rebranding initiatives across legacy banking platforms, ensuring consistent design language, responsive UI, and reusable component patterns.
- Improved page performance through code splitting, lazy loading, optimized rendering, and frontend best practices.
- Collaborated with DevOps teams to integrate CI/CD, monitoring, and alerting workflows, improving deployment reliability.

Frontend Engineer II**Jul, 2021 – Sep, 2022***Wells Fargo | Bangalore, India*

- Modernized a legacy jQuery application into a React and TypeScript-based customer portal using component-driven architecture.
- Developed user workflows for replacing lost or stolen cards, including end-to-end request tracking and improved customer self-service experience.
- Improved maintainability by separating reusable UI components, API integration logic, and business rules.

Frontend Engineer I**Aug, 2020 – Mar, 2021***Rakuten | Bangalore, India*

- Built responsive, optimized React components and collaborated with cross-functional teams to deliver consistent user experiences across devices.
- Implemented test-driven development practices for React components and achieved strong code coverage through unit and integration tests.
- Conducted code reviews and promoted frontend best practices, improving overall code quality and maintainability.

Frontend Engineer I**Jan, 2019 – Aug, 2020***CGI | Bangalore, India*

- Designed and implemented enterprise web applications for the Oil and Gas domain using Vue.js, Vuex, Kendo UI, and modern JavaScript.
- Followed SonarQube quality standards and secure coding practices, reducing code vulnerabilities and improving maintainability.
- Supported Agile delivery by incorporating stakeholder feedback, improving iteration speed, and strengthening team collaboration.

Associate Frontend Engineer**Jan, 2016 – Dec, 2018***Thomson Reuters | Bangalore, India*

- Developed dynamic, pixel-perfect web interfaces using HTML5, SCSS, JavaScript, and responsive design practices.
- Built and delivered a Snippet Portal innovation project that streamlined common workflows for peer developers.
- Received multiple awards for creativity, problem-solving, technical ownership, and delivery excellence.

EDUCATION**Master of Computer Application (MCA)** - Bangalore University, India | 2011 - 2014**Bachelor of Computer Application (BCA)** - Integral University, India | 2008 - 2011

ADDITIONAL STRENGTHS

- Frontend ownership, scalable UI architecture, clean code, reusable components.
- Finance and banking domain experience, legacy modernization, performance optimization.
- Mentoring, code reviews, and cross-functional delivery.
